

# Overview of Cold Forming and CNC machining

## Case Study 1 – Application Plasma Cutting Shield

Conventional – machined from solid

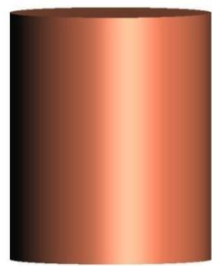

Cold formed & machined method

# Overview of Cold Forming and CNC machining

## Case Study 2 – Application Power Distribution

Conventional – machined from solid

1071g

Machine

345g

Creates a **lot of waste**

**726g**

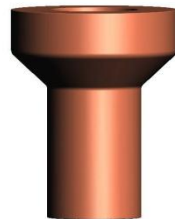

Cold formed & machined method

423g

Cold-form

423g

Machine

345g

**Much less waste**

**78g**
